

Open House Kits

These Open House “kits” include 17 display boards and supporting props. One for each event.

Also, there is a PowerPoint presentation that covers the basics of Science Olympiad, including the roles that families are expected to play in a well-run team and some details about the variety of event formats.

This is a great resource for you to introduce Science Olympiad and to get engagement from families to support your team.

Contact Kathy Deckert (esosecretary@macombso.org) with questions or to request your school be added to the calendar. Eventually, you will be given instructions on where to pick the kit up, possibly from another Head Coach.

If you are a new school to Science Olympiad or a new Head Coach that needs support, discuss with Kathy the possibility of having a Science Olympiad Board Member assist you in the delivery of your Open House event.

Students and their parents may be interested in a [video](#) overview a district tournament, describing events and the excitement of an awards presentation at the end.
