

Bio Process Lab

The Textbook used as a resource for this event is:

Merrill - Biology: An Everyday Experience

One Line resources will also be used

This is a lab practical

- students should practice being timed on tests
- Stations will have 1-5 questions
- Students will most likely have 90 sec - 2.5 minutes at each station
- Students will be disqualified for not moving when directed to
- Returning to a station will not be allowed
- Moving to a station earlier than directed will not be allowed
- Modifying a station in any manner will be cause for disqualification

Organization of notes is very important

- students somehow color code or separate notes to make it easy to find the information the day of the tournament
